Education

•Bachelor of Technology in Computer Science and Engineering (AI&ML) *2022 – 2026*
Lakshmi Narain College of Technology, Bhopal CGPA: 7.79

Experience

•AI Software Engineer *Jul 2026 – Aug 2026*
Meru Land Private Limited Remote

- Developed backend services and REST APIs in Python and FastAPI, deployed to production.
- Built LLM-powered workflows using LangChain, LangGraph, and RAG, improving response relevance and reducing manual effort.
- Integrated third-party APIs and collaborated on scalable, testable backend architecture.

Technical Skills

Languages: Java, Python, JavaScript, SQL
Backend & APIs: Node.js, Express.js, FastAPI, Spring Boot, REST APIs, Microservices, Authentication & Authorization
AI/GenAI: RAG, LangChain, LangGraph, LLMs, Prompt Engineering, Embeddings, Vector Search, Agentic AI, MCP, OpenAI API, Mistral API, Hugging Face
Databases: MySQL, PostgreSQL, MongoDB, Redis, Database Design, Indexing, Query Optimization
System Design: Load Balancing, Caching, Horizontal Scaling, Sharding, Replication, Message Queues, High Availability
Cloud & Tools: AWS (EC2, S3), Azure, Docker, Git, GitHub, CI/CD, Postman, VS Code
Core CS: OOP, DBMS, Operating Systems, Computer Networks, Multithreading, SOLID Principles, Design Patterns

Personal Projects

•LocalShopWala.com *2026*
Full-stack local commerce platform connecting customers with nearby shops and services.

- Engineered and deployed a full-stack commerce platform for shop discovery, ordering, and digital payments, with production REST APIs built using Node.js and Express.js.
- Built a dedicated AI microservice in Python/FastAPI for intelligent search and LLM-based interactions.
- Designed PostgreSQL data models with Redis caching, authentication, structured logging, and Docker-based deployment.
- Tech: Node.js, Express.js, Python, FastAPI, PostgreSQL, Redis, Docker, REST APIs.

•LinkedIn Scouting Agent *Apr 2026 – Jun 2026*
AI system for automated lead discovery, profile analysis & outreach.

- Built an AI agent for prospect discovery, profile analysis, and personalized outreach workflows.
- Integrated UniPile APIs with LangChain and LangGraph for context-aware lead qualification.
- Deployed on Azure App Service with optimized, low-latency backend pipelines.
- Tech: Python, FastAPI, LangChain, LangGraph, UniPile, Azure.

•AI Personal Assistant *Dec 2025 – Jan 2026*
GenAI assistant with memory and context-aware conversations.

- Built a RAG-based assistant with persistent memory and semantic search over user documents.
- Implemented document ingestion, embeddings, and structured prompting; reduced hallucinations via retrieval-augmented context injection.
- Tech: Python, FastAPI, LangChain, Hugging Face, Mistral API, Pinecone.

Achievements & Certifications

•Data Structures & Algorithms

- Solved **450+ DSA problems** (Arrays, Strings, Trees, Graphs, Dynamic Programming, Recursion) on LeetCode & GeeksforGeeks.

•AI Workshop Session Lead (Generative AI & Backend Systems) *2026*

- Conducted a live AI workshop for **300+ attendees** on Generative AI, FastAPI, and RAG-based backend systems.

•Certifications

- Generative AI with Python – Udemy
- Spring Boot – Telusko (Sep 2025)
- Back End Domination – Sheryians (May 2025)
